***Retro-Fit an Existing
Trapeze with Ease!***

Kindorf[®]

Trap-Eze[™]
Connector

Kindorf®

Trap-Eze™ Connector

Handle Retro-Fit Trapeze Applications with Ease!

The innovative Kindorf Trap-Eze Connector changes a time-consuming retro-fit trapeze application into a streamlined process. Using a Kindorf Trapnut® Strut Fastener, the new Trap-Eze Connector can be easily installed above or to the side of an existing assembly, eliminating the need to disassemble and reassemble the trapeze. It is designed for use with shorter strut lengths that can vary in length by as much as an inch, so the strut can be rough cut versus labor-intense precision cuts.

- Easily installs above or to the side of an existing assembly, eliminating the need to disassemble and reassemble the trapeze
- Connectors can be reused upon disassembly of a trapeze
- Designed for either 3/8" and 1/2" threaded rod
- Designed for use with the innovative Kindorf Trapnut® Strut Fastener, which can take up to 43% less time than standard nuts and washers on retro-fit trapeze applications
- View window provides safety zone for strut length

Takes up to **43% less time** on retrofit applications than standard nuts and bolts

Easily installs above existing trapeze

Can be used to extend existing trapeze

Designed for use with the innovative Kindorf Trapnut® Strut Fastener

View window provides strut length safety zone for rough cuts versus precision cuts

Unique safety slot maintains bracket position on threaded rod and prevents disengagement of the trapeze system

Kindorf Trapnut® Strut Fastener
