

# Accessories for overload relay

## Separate mounting units

These accessories are used to mount the relays separately from contactors.  
If a relay is combined with a unit, it can be mounted on DIN rail or panel by fixing screws.

| Relay                                                | Unit      |        |
|------------------------------------------------------|-----------|--------|
|                                                      | Type      | Weight |
